## what is Acadia Connect®?

Acadia Connect® is a support program that helps ensure it's easy for your patients to start and continue NUPLAZID therapy.

We're here to support you, your staff, those prescribed NUPLAZID, and their care partners with access, insurance, affordability, and prescription assistance.

### Acadia Connect® helps support:

#### You and your staff

- Navigating access, coverage, and benefits investigations
- Assisting with prior authorizations, appeals, and reauthorizations
- Delivering information on potential financial support options for eligible patients
- Coordinating medication delivery through in-network specialty pharmacies

#### Your patients and their care partners

- Providing education on the disease state and information regarding NUPLAZID
- Sharing information on insurance coverage and potential financial support options
- Offering support and education throughout the potential treatment journey
- Coordinating with in-network pharmacies for the timely and convenient delivery of NUPLAZID
- Facilitating ongoing engagement with educational tools and resources

Please read the [full Prescribing Information](#), including **Boxed WARNING**, also available at [NUPLAZID.com](https://www.nuplazid.com).

over the lifetime  
of the patient

\*Based on a retrospective analysis of Acadia HUB and specialty pharmacy data for referrals from January 1, 2021 through December 31, 2025 (data as of April 30, 2026); n=20,521 Acadia Connect®-supported referrals and n=17,887 direct-to-specialty-pharmacy referrals without a treatment form.

## Acadia Connect® program services and support:

Enrollment in Acadia Connect® activates a variety of support services and resources for patients and care partners, including:

- ♥ **Financial support:** Eligible patients with commercial insurance may pay as little as \$0 per month for NUPLAZID after being enrolled in the Acadia Connect® Commercial Copay Program.\* If your patient does not have insurance, or if NUPLAZID is not covered by their insurance plan, Acadia Connect® can provide potential financial support options such as the Acadia Connect® Patient Assistance Program†
- ♥ **Prescription fulfillment:** We partner with in-network pharmacies to process and fill your patient's NUPLAZID prescription. This helps your patients start therapy as soon as possible and regularly receive their prescriptions on time
- ♥ **Delivery:** Once your patient's prescription details are finalized by an in-network pharmacy, they will schedule the delivery to the location most convenient for your patient and their care partner. Acadia Connect® will coordinate shipping your patient's refills
- ♥ **Ongoing support:** Acadia Connect® regularly touches base with your patient and/or their care partner to provide education on their potential treatment with NUPLAZID, and to assist them with any changes they may be experiencing with the patient's insurance, financial situation, or prescription delivery, reducing follow-up burden
- ♥ **NUPLAZID® Free 30-Day Quick Start††:** Your patients may be eligible for a NUPLAZID® Free 30-Day Quick Start. NUPLAZID® Free 30-Day Quick Start can be requested via your EHR or by filling out the free trial section on the Prescription and Enrollment Form

\*Terms, conditions, and program maximums apply. This program is not open to patients receiving prescription reimbursement under any federal, state, or government-funded healthcare program. Not valid where prohibited by law.

†Terms and conditions apply. An application is required and is subject to review. Submission of an application does not guarantee approval for the program. While Acadia makes every effort to grant aid when needed and appropriate, the program is limited in available resources and may be modified or discontinued at any time without further notice.

††Terms and conditions apply. Available for eligible patients starting therapy. This offer is limited to one per patient and is not transferable. The free trial is not health insurance.

## ICD-10 diagnostic codes for Parkinson's disease (PD) psychosis.

Your patient with PD-related hallucinations and delusions may need a prior authorization to get coverage for NUPLAZID. A common prior authorization requirement is the confirmation of a PD psychosis diagnosis. View coding combinations recognized for PD psychosis diagnosis below:

### Any of the G20 (PD) subcodes<sup>1,2</sup>:

- ♥ **G20.A1** Parkinson's disease without dyskinesia, without mention of fluctuations
- ♥ **G20.A2** Parkinson's disease without dyskinesia, with fluctuations
- ♥ **G20.B1** Parkinson's disease with dyskinesia, without mention of fluctuations
- ♥ **G20.B2** Parkinson's disease with dyskinesia, with fluctuations

### AND one of the following:

- ♥ **F06.0** Psychotic disorder with hallucinations due to known physiological condition
- ♥ **F06.2** Psychotic disorder with delusions due to known physiological condition

This information is provided for educational purposes only. Acadia Pharmaceuticals cannot guarantee insurance coverage or reimbursement. It is the sole responsibility of the healthcare provider to select the proper codes and ensure the accuracy of all statements used in seeking coverage and reimbursement for an individual patient.

## Indication

NUPLAZID is a prescription medicine used to treat hallucinations and delusions associated with Parkinson's disease psychosis.

## Important Safety Information

### What is the most important information I should know about NUPLAZID?

- Medicines like NUPLAZID can raise the risk of death in elderly people who have lost touch with reality (psychosis) due to confusion and memory loss (dementia).
- NUPLAZID is not approved for the treatment of patients with dementia who experience psychosis unless their hallucinations and delusions are related to Parkinson's disease.

### Who should not take NUPLAZID?

- **Do not take NUPLAZID if you** have had an allergic reaction to any of the ingredients in NUPLAZID. Allergic reactions have included rash, hives, swelling of the tongue, mouth, lips, or face, throat tightness, and shortness of breath.
- **Do not take NUPLAZID if you have certain heart conditions** that change your heart rhythm. It is important to talk to your healthcare provider about this possible side effect. Call your healthcare provider if you feel a change in your heartbeat.

### What other warnings should I know about NUPLAZID?

- **QT Interval Prolongation:** NUPLAZID may increase the risk of changes to your heart rhythm. This risk may increase if NUPLAZID is taken with certain other medications known to prolong the QT interval. Tell your healthcare provider about all the medicines you take or have recently taken.

Please also see **What is the most important information I should know about NUPLAZID?**

### What medicine might interact with NUPLAZID?

- **Tell your healthcare provider about all the medicines you take.** Other medicines may affect how NUPLAZID works. Some medicines should not be taken with NUPLAZID. Your healthcare provider can tell you if it is safe to take NUPLAZID with your other medicines. Do not start or stop any medicines while taking NUPLAZID without talking to your healthcare provider first.

### What are the common side effects of NUPLAZID?

- The **common side effects** of NUPLAZID include swelling in the legs or arms, nausea, confusion, hallucination, constipation, and changes to normal walking. These are not all the possible side effects of NUPLAZID. For more information, ask your healthcare provider about this medicine.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch) or call 1-800-FDA-1088. You can also call Acadia Pharmaceuticals Inc. at 1-844-4ACADIA (1-844-422-2342).

### How should I take NUPLAZID?

The recommended dose of NUPLAZID is one 34 mg capsule once per day, taken by mouth, with or without food.

NUPLAZID is available as 34 mg capsules and 10 mg tablets.

Please read the [full Prescribing Information](#), including **Boxed WARNING**, also available at [NUPLAZID.com](http://NUPLAZID.com).
